

The Crystal Lake Chamber's *Green Business Task Force* now offers **free** environmental sustainability assessments for all local businesses and organizations. The assessments are performed by Task Force members and are designed to educate, inspire, and help businesses become more environmentally aware and actively engaged in sustainable greening programs and initiatives.

Suggestions will be made to introduce money saving technologies, which will positively impact both the environment and benefit the company.

Benefits include:

- Strengthening the bottom line through operating efficiencies, such as waste reduction and more efficient use of resources
- Improving employee morale and creating an overall healthy workplace
- Demonstrating community good will
- Creating a marketing edge

Assessments are **FREE!** To schedule yours, please contact Peter Affrunti at [pja@affruntidesign.com](mailto:pja@affruntidesign.com), or at Affrunti Design Management: 815-459-4822.
