

Come Join the Crystal Lake Chamber of Commerce's "Green Business Task Force"

Mission

To inspire and help businesses, civic, and government entities become environmentally aware of sustainable practices and money saving technologies while positively impacting our environment.

Goals

- Create and present green business tools and opportunities to educate businesses.
- Encourage green practices while enhancing chamber membership.
- Support environmentally sustainable building expansions and developments.

Process:

We will reach out to businesses and organizations, create awareness of current environmental problems, suggest possible solutions, and then encourage and enable businesses and organizations to institute the sustainable changes.

The group's credibility is established by being under the auspices of the Crystal Lake Chamber and by the collective expertise that we each bring to the table.

Group member expectations:

- Be a Crystal Lake Chamber of Commerce member
- Attend meetings regularly
- Help educate the group in your area of expertise
- Actively participate in one of the group's subcommittees
- Invite and bring potential new members to the group
- Keep current with group dues - (\$50 for the first quarter of each year, and \$35 for the remainder.)

Meetings are held on the first and third Tuesdays of the month at 8:30 am at the Crystal Lake Chamber. Please contact Mark Elmore of Mark Elmore Associates, Architects at (815) 455-7260 or mark@elmore-architects.com
